

ACE GREEN NATURAL GAS COMMODITY TERMS AND CONDITIONS

By receiving natural gas supply service from the Public Alliance for Community Energy, a Competitive Natural Gas Provider in the Nebraska Choice Gas[®] Program, you are agreeing to be bound by the terms and conditions of service set forth below (the "Agreement") and as agreed in correspondence, whether via telephone, electronic or written, mailed selection form, delegation agreement(s) (if any), and/or as a Default customer. In this Agreement, you are referred to as "you" and "your", and the Public Alliance for Community Energy is referred to as "ACE".

Enrollment. When you accept the terms and conditions of ACE natural gas service by verbal, written, or electronic acknowledgment, or as a Default customer within the meaning of the applicable tariff administered by the local gas distribution utility (hereinafter referred to as the "Utility", which is currently Black Hills Nebraska Gas, LLC and will include its successors and assigns), you sign up for ACE natural gas service under the terms set forth in this Agreement. Under the pricing option you select, ACE agrees to sell to you and deliver to the Utility, and you agree to purchase from ACE and receive from the Utility, your full requirements of natural gas for the account for which you subscribed to the ACE natural gas service (referred to herein as "Account"). The Utility will deliver the natural gas to the premises listed on the Account and shall invoice and collect ACE's charges. You and ACE agree to comply with all the requirements, terms, and conditions of the Utility's Nebraska Choice Gas[®] program (hereinafter referred to as the "Choice Program") as approved by the Nebraska Public Service Commission, as such terms and conditions may be modified from time to time. You acknowledge that if the Choice Program is terminated or changed in any manner, ACE reserves the right to modify or cancel the terms and conditions of this Agreement upon 10 days' written notice to you.

Your Rate Per Therm. Your Supplier Commodity Charge for all of your natural gas usage for the Account will be the rate confirmed to you at the time you subscribed to ACE natural gas service. You acknowledge that, in addition to the Supplier Commodity Charge amount, you shall be responsible for paying any other charges assessed by the Utility. Furthermore, you acknowledge that you shall be responsible for paying the ACE Green Carbon Offset Charge, equal to \$0.0165 per therm, for the duration of the term of this Agreement. Unless expressly specified otherwise in your Agreement, your ACE natural gas rate may change if an upstream pipeline used for transportation services or the Utility adds or adjusts any surcharges or riders, or changes the rates charged to ACE.

ACE Green Carbon Offset Charge. In consideration of your payment of the ACE Green Carbon Offset Charge, ACE agrees to (a) through a contract with its supplier, retire carbon offsets sufficient to offset ten percent (10%) of your natural gas usage at a rate of 0.65 cents (\$0.0065) per therm of your total natural gas usage, and (b) make a donation to the Arbor Day Foundation in an amount that is equivalent to one cent (\$0.01) per therm of your total natural gas usage. Your rate shall include the ACE Green Carbon Offset Charge for the duration of the term, and the corresponding purchase of carbon offsets shall be calculated on an annual basis following the completion of each one-year period beginning on June 1 after enrollment and terminating the following May 31. "Carbon offset" means a verified avoidance, reduction, or removal in greenhouse gas emissions equivalent to one metric ton of carbon dioxide equivalent, as specified via the applicable carbon offset registry utilized through ACE's supplier. Carbon offsets shall not include any tax credits, depreciation allowances, or third-party subsidies of any kind. Any carbon offsets retired pursuant to these Terms and Conditions shall be retired no later than two (2) years after your corresponding natural gas use.

Change in Certification Standard. In the event that the applicable certification standards for carbon offsets are modified or repealed, or if there is any new law or regulation enacted, after your selection of the ACE Green product but prior to retirement of the applicable carbon offsets by ACE's supplier, in such a way that ACE's supplier is no longer able to retire the required carbon offsets, ACE shall credit you for any payments previously made by you for the Carbon Offset Charge for any corresponding carbon offsets that were paid for but not actually delivered (if any).

Carbon Offset Supplier Contingency. Retirement of carbon offsets is subject to the terms and conditions of an agreement between ACE and its carbon offset supplier (the "Supplier Agreement"). In the event that, under the terms of the carbon offset Supplier Agreement, ACE's supplier fails to or is unable to purchase the required carbon offsets at any point following your selection of the ACE Green pricing option, ACE, at its option, will (a) automatically enroll you in ACE's fixed price per therm service, at a price which is equal to your selected ACE Green pricing option, less the ACE Green Carbon Offset Charge and refund you any portion of the Carbon Offset Charge for any carbon offsets which were paid for but not actually retired, or (b) make arrangements to purchase alternate carbon offsets in the same amount as set forth herein at no additional charge to you.
